W. S. WINDLE, HERBERT P. WORTH, B. W. HAINES,
EDWARD E. SHIELDS, ROBERT S. GAWTHROP

Committee on Athletic Grounds

M. S. WAY, A. P. HALL, A. P. REID, H. G. SMITH, P. E. JEFFERIS

The President is a member (*ex-officio*) of all standing
committees.

Treasurer

WILLIAM DOWLIN

Steward

HARRY S. JOHNSON

Matron

ANNICE K. BROWNE

The regular meetings of the Board are held on the *last Monday*
in each month.

The Faculty

GEORGE MORRIS PHILIPS, PH. D., LL. D.
Principal

ELVIRA Y. SPEAKMAN
Preceptress; Geography and Spelling

FRANCIS H. GREEN, A. M., LITT. D.
English

C. E. EHINGER, M. D.
Director of Gymnasium

CHARLOTTE N. HARDEE, Mus. B.
Music

ESTHER M. GROOME
Drawing and Writing

S. C. SCHMUCKER, A. M., PH. D.
Biological Sciences

CORA E. EVERETT
Reading

FOSTER H. STARKEY, A. M.
Vice-Principal; Latin

WALLACE P. DICK, A. M.
Greek and Latin

SMITH BURNHAM, A. M.
History

ADDISON L. JONES, A. M.
Principal Model School

ROBERT F. ANDERSON, A. M., Sc. D.
Mathematics

ELLA AUGUSTA JOHNSON
French and German

CHARLES A. WAGNER, A. M.
Pedagogy

NORMAN W. CAMERON, A. M., PH. D.
Psychology and Methods of Teaching

J. FRANK NEWMAN, A. M.
Physics and Geology

ARTHUR C. SMEDLEY, A. M.
Chemistry and Physiology

LYDIA A. MARTIN, M. E.
Mathematics

MRS. C. E. EHINGER
Physical Training

ANNA P. ESLER, M. E.
Reading and Grammar

ELIZABETH F. CRILEY, M. E.
English Branches

HARRIET H. BALDWIN, M. E.
English

THOMAS E. KELLY
Manual Training

ISADORE E. CROPSEY, Mus. B.
Piano

HELEN C. SPEAKMAN, A. B.
History

D. EDWARD ATWELL
Mathematics

EDGAR T. WILLIAMS
English

ELSIE O. BULL
Mathematics

ELIZABETH S. JAMES, A. M.
German and Latin

GRACE D. McCARTHY
English Grammar

WILHELMA C. GARVIN
French and German

ALFRED L. CAREY, A. B.
English

J. ALEXANDER WEBB
Book-keeping

RACHEL P. JOHNSON
ALBERT D. HARRINGTON
Assistants in Gymnasium

HUMPHREY M. CARPENTER
Violin, Flute, Violoncello
* * * * *

ALICE COCHRAN
Librarian

J. ALEXANDER WEBB
Secretary

HENRY HOCKER
Book-keeper

MAURICE C. WOLF
Study Hall

AMANDA STREEPER
Assistant Librarian

Courses of Study for Pennsylvania State Normal Schools

Graduation in this course will continue until 1913. After 1913 all graduates must have completed the new four-years' course. See page 22.

REGULAR COURSE

(Studies marked with an (*) are to be reviewed in Senior Year.)

PREPARATORY AND SUB-JUNIOR STUDIES

Physiology, Political Geography, Spelling and Writing completed; Algebra through radicals; Drawing (one term), Arithmetic, English Grammar and Reading as in ordinary text books.

JUNIOR YEAR

Pedagogics:—School Management.

Language:—English Grammar,* Reading and Orthography, Latin to Cæsar.

Mathematics:—Arithmetic,* Algebra.

Natural Science:—Physiology.

Historical Science:—Geography, United States History, Civil Government of the United States and Pennsylvania.

Arts:—Penmanship (an approved system, with a fair handwriting), Drawing (daily lessons for at least twenty weeks), Vocal Music (elementary principles and daily exercises for at least ten weeks), Book-keeping (single entry, with a knowledge of common business papers).

Physical Culture.

MIDDLE YEAR

Pedagogics:—Psychology, Methods of Teaching.

Language:—Rhetoric and Composition, with elocutionary exercises, three books of Cæsar.

Mathematics:—Plane Geometry.

Natural Science:—Elements of Chemistry, Zoology and Botany.

Historical Science:—General History.

Arts:—Manual Training.

Physical Culture.

SENIOR YEAR

Pedagogics:—History of Education, Methods of Teaching, Practice of Teaching in Model School.

Language.—Literature and Classics, three Orations of Cicero, three Books of Virgil, Review of English Grammar.

Mathematics.—Solid Geometry, Plane Trigonometry and Surveying, Review of Arithmetic.

Natural Science.—Physics, Geology.

Physical Culture.

SUBSTITUTIONS

The following substitutions may be made:

Junior Year.—German or French for Latin.

Middle Year.—German or French for Latin; Greek, German or French for Chemistry.

Senior Year.—English History, Ethics and Logic or Astronomy for Latin; Greek, German or French for Solid Geometry, Trigonometry and Surveying, or for Latin.

S U P P L E M E N T A R Y C O U R S E

(In addition to the Normal Course)

LEADING TO THE DEGREE OF BACHELOR OF PEDAGOGICS

Philosophy of Education (Horne); Advanced Psychology (James, Briefer Course).

Discussion of Educational Questions (Educational Aims and Educational values, Hanus); School Supervision, including School Law (Our Schools, Chancellor, Pennsylvania School Laws); Devices for Teaching (Teaching of Elementary Mathematics, Smith); Educational Theories, etc. (Education as Adjustment, O'Shea).

School Apparatus and Appliances, Description, Use and Preparation. (Physical Nature of the Child, Rowe).

LEADING TO THE DEGREE OF MASTER OF PEDAGOGICS

Two years' teaching after graduation.

Professional Reading, with abstracts: History of Education in the United States (Boone), European Schools (Klemm), Systems of Education (Parsons).

Sanitary Science, School Architecture, etc.: School Hygiene (Shaw). Thesis.

A full equivalent will be accepted for any of the text books named above. The course in reading and classics for all the courses shall be determined by the Board of Principals at their annual meeting, and shall be the same for all Normal Schools.

N. B.—Students are admitted to the Junior or lower classes upon examination by the faculty. These examinations are held at the beginning of each term and just preceding the time of the annual examination. Arrangements may be made to take special examinations on the first Saturday of each month during the school year.

The New Four Years Normal School Course

In 1910 a four years' Normal School course was adopted for the State Normal Schools of Pennsylvania, in which students may first graduate in 1913, and in which alone they may graduate in 1914 and thereafter.

To be admitted to the first year, students must have a fair knowledge of arithmetic, physiology, civil government, reading, spelling, writing, United States history, geography, grammar, and the elements of algebra to quadratics. Test by faculty.

First Year—Algebra, Latin to Cæsar, school management and school law, spelling, reading and public speaking, ancient and mediæval history, physical geography, arithmetic, English grammar, vocal music, physical training, manual training or domestic science.

Second Year—Plane geometry, rhetoric, composition and English classics, botany, zoology, book-keeping, modern and English history, Cæsar, methods of teaching, drawing, physical training.

Third Year—Psychology, Cicero or German or French, English and American literature, United States history and civil government; geography, physiology and school sanitation, solid geometry and trigonometry, methods in history and geography, physics, physical training. History of arts and sciences may be substituted for Cicero, French or German. Geology and astronomy may be substituted for solid geometry and trigonometry.

Fourth Year—Practice teaching, history of education, agriculture and nature study, arithmetic and methods in arithmetic, grammar and methods in grammar, Virgil or German or French, public speaking, chemistry, drawing, manual training or domestic science, physical training. In the fourth year, for Virgil, French or German any three of the following may be substituted: *i. e.*, ethics, logic, sociology, philosophy of education, or surveying.

CONDITIONS OF ADMISSION, GRADUATION, ETC.

1. Properly certified graduates of approved Pennsylvania high schools of the first grade and of city high schools, as listed by the Department of Public Instruction, shall be admitted to the third year of the Four Years' Course of the State Normal Schools without examination, conditioned in the branches that have not been satisfactorily completed in their high schools.

2. Properly certified graduates of approved Pennsylvania high schools of the second grade shall be admitted to the second year of the Four Years' Course of the State Normal Schools without examination, conditioned in the branches that have not been satisfactorily completed in their high schools.

3. Properly certified graduates of approved Pennsylvania high schools of the third grade shall be admitted to the first year of the Four Years' Course of the State Normal Schools without examination, conditioned

in the branches that have not been satisfactorily completed in their high schools.

4. A person who desires to be admitted to the second or the third year without having previously attended an accredited high school, must have a certificate of a commissioned Superintendent of Schools, showing that he has pursued the branches of the first year or the first and second years, with his standing in those branches, or must pass a satisfactory examination by the Faculty in said branches, or be conditioned in them. But the studies in which any one is conditioned under this rule or any one of the rules above, shall not foot up more than 320 weeks.

5. If the Faculty of any State Normal School or the State Board of Examiners decide that a person is not prepared to pass an examination by the State Board of Examiners, he shall not be admitted to the same examinations at any other State Normal School during the same school year.

6. If a person who has completed the examinations required for admission to the classes of any year at any State Normal School desires to enter another Normal School, the Principal of the School at which the examination was held shall send the proper certificate to the Principal of the school which the person desires to attend. Except for the reason here stated, no certificate setting forth the passing of any studies at a State Normal School shall be issued.

7. At the end of the third, and of the fourth, year of the course, students must pass examinations in them by the State Board of Examiners, as well as by the faculty of the Normal School. There are no State examinations in the work of the first and second years, their work being finally passed in the faculty examinations or before entering the school as herein provided.

8. Candidates for graduation shall have the opportunity of being examined in any higher branches, including vocal and instrumental music and double entry book-keeping; and all studies completed by them shall be named in their certificate. Persons who have been graduated may be examined at any State examination in any higher branches, and the Secretary of the Board of Examiners shall certify on the back of their diplomas as to the passing of the branches completed at said examination. No certificate or diploma valid for teaching except the one regularly issued by the State Board of Examiners to regular graduates shall be issued by any State Normal School or any person connected with any such school.

9. A certificate setting forth the proficiency of all applicants in all the studies in which they desire to be examined by the State Board of Examiners shall be prepared and signed by the faculty and presented to the Board. Studies that have been completed at a high school shall be distinguished by the words "high school" or the initials "H. S." A separate list of each class shall be prepared for the use of each examiner together with a separate list of students conditioned in any branch, with the branches in which they are conditioned and the grades shall be indicated in every list where substitution is made or extra branches are taken. These lists shall be ready for the State Board before the examination begins.

10. No State examination shall be given to any student on part of a year's work unless the study is completed, but (except in the last year's examination) a student may be conditioned by the State Board of Examiners in not more than two subjects, covering not more than one period of work for a year. Accurate records of these conditions shall be promptly sent to the Superintendent of Public Instruction and the

fact that the students thus conditioned have taken up such subjects and passed them by the faculty shall be certified to in writing to the State Board of Examiners before such students are admitted to another State examination.

11. Within fifteen days after the examination by the State Board of Examiners at any Normal School, the Principal of the school shall send to the Department of Public Instruction a complete list of all who have taken advanced branches, together with a list of these branches, also a list of those to whom diplomas and certificates were granted, and a list of those who passed the State examination in any year, naming the year.

12. Graduates of State Normal Schools in the regular course, and graduates of colleges approved by the College and University Council, who shall satisfactorily pass the Faculty and State examinations in the course required therefor, shall receive the degree of Bachelor of Pedagogics. Bachelors of Pedagogics who have, after receiving such degrees, taught successfully for two years, and passed the Faculty and State examinations in the course required therefor, shall receive the degree of Master of Pedagogics.

13. Attendance for the last two years shall be required of all students, except in the case of graduates of Four Years' Courses in colleges approved by the College and University Council, who may be graduated after one year's residence.

Additional Rules for Examinations in the Regular (Old) Course

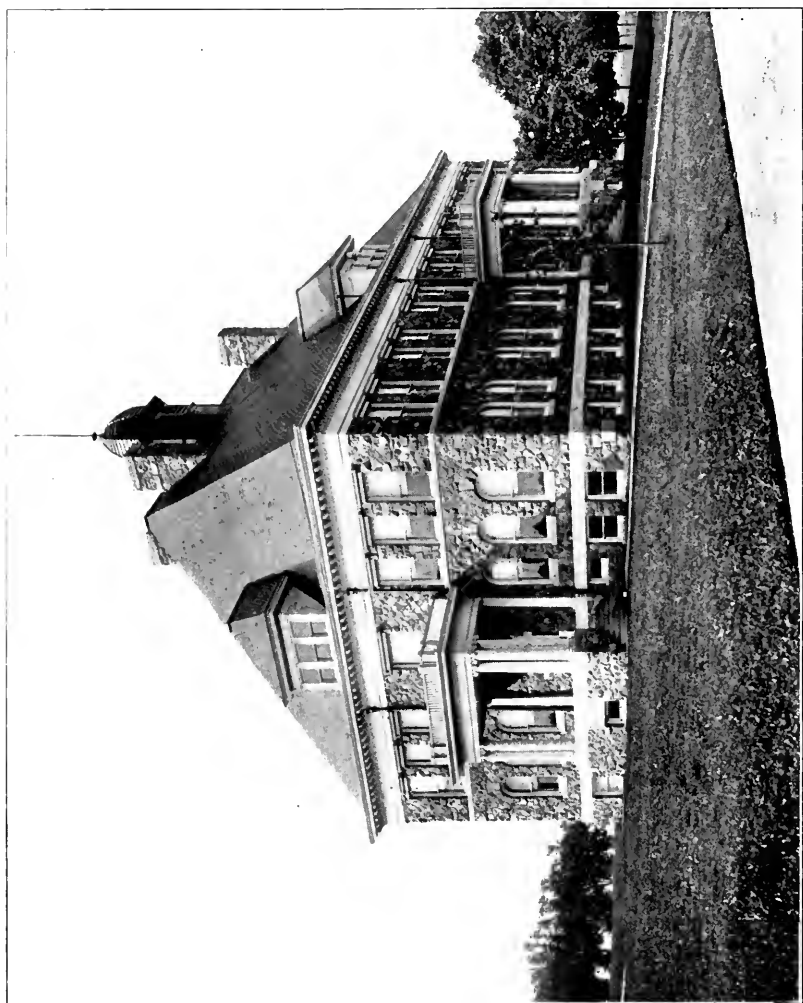

14. Admission to the Senior and Middle classes shall be determined by the State Board of Examiners at the annual examination* by the Board.

15. In order to be admitted to the Middle class at any State Normal School, students must be examined by the State Board in all the Junior studies (except English Grammar and Arithmetic), and this examination shall be final. Persons who desire to be admitted to the Middle class without having previously attended a State Normal School, must pass an examination by the Faculty and State Board of Examiners in the academic studies of the Junior year (except the Senior review studies), and Plane Geometry or the first book of Caesar, and must complete School Management in the Middle year. Students sufficiently advanced may have the opportunity of taking the Junior and Middle year courses in one year.

16. In order to be admitted to the Senior class, students must be examined by the State Board of Examiners in all the Middle year studies (except Methods), and this examination shall be final. Persons who desire to be admitted to the Senior class without having previously attended a State Normal School, must pass an examination by the Faculty and State Board of Examiners in the academic studies of the entire course, except the review studies of the Senior year, and must devote their time during the Senior year to the professional studies of the course and the review studies.

17. Attendance at a State Normal School during the entire Senior year will be required of all candidates for graduation.

*These examinations come early in June, the date being fixed each year by the State Superintendent. The examinations are in writing and last three days.

The Model School

CERTIFICATE AND DIPLOMAS

A graduate receives a certificate in which are named the branches he has studied, which entitles him to teach in the public schools of Pennsylvania for any two subsequent years without further examination.

Graduates who have continued their studies for *two years* and have practiced their profession for *two annual terms*, in the Public Schools of the State, and who have presented to the Faculty and Board of Examiners a certificate of good moral character and skill in the art of Teaching from the Board or Boards of Directors in whose employ they have taught, countersigned by the proper Superintendent, may receive diplomas, which are permanent certificates of the highest grade. *They confer upon their holders the right to teach the branches named therein in the public schools of Pennsylvania without further examinations.*

Applications for diplomas must be presented to the Board of Examiners at its regular session.

Departments of Study

Professional Training

The aim of the Department of Psychology and Education is to prepare practical and efficient teachers by giving the students such special instruction and training as will prepare them in the best possible manner for the work of organizing, governing, and teaching the various grades of schools. While thorough scholarship will always be considered an essential quality of the good teacher, professional training is to-day universally regarded as a necessary requisite. There is a constant and successful effort in the department to carefully correlate all courses and at the same time to keep in close touch with the observation and practice work of the Model School.

Management and Methods of Teaching:—The course in School Management consists of a practical study of school organization and discipline; a brief study of School Law is also given, together with a comparative study of several good schools.

In Methods of Teaching the aim is to prepare the students to teach the elementary school branches in accordance with modern pedagogical principles.

Psychology and Methods of Teaching:—This course begins with a study of the normal adult mind and gradually extends to Genetic Psychology, where the students learn to understand and to develop the mind of the child, and thus in the end gain an intelligent sympathy with children. The aim is to give the student-teachers a body of well-classified knowledge, the method to acquire more such knowledge and the ability to apply this knowledge directly to teaching. Experiments, demonstrations, and library work are frequently used where practicable.

The application of Psychology to teaching is practically emphasized in the second part of the course. The methods of teaching the different elementary branches are briefly but carefully considered, and constant use is made of the newly-organized Text Book Library.

History of Education and Methods of Teaching:—In order to understand the present it is necessary in a measure to know the past. The course in the History of Education leads the students to understand the development of the present educational institutions, methods and systems, as they have been evolved.

The work in Methods of Teaching in the Senior Year includes observation and practice in the Model School, and class work given by the heads of the different departments of the school.

Supplementary Course:—This work leads to the degrees of Bachelor and Master of Pedagogics, and offers a comprehensive study of the Philosophy of Education, Psychology, School Organization and Methods of Instruction.

The Model School

The Model School is housed in a new stone building, 114 by 62 feet, which has been recently erected at a cost of forty-two thousand dollars, and which is a most complete and suitable building for the purpose. This building is used by the Public Schools of West Chester and the Superintendent of the West Chester Schools is Principal of the Model School. The members of the Senior Class observe and teach in the different schools of this building. They meet the Principal of the Model School collectively once each week for general instruction in methods and school management, and individually meet him daily for special instruction adapted to their needs. This experience in public schools of high reputation and efficiency is an excellent preparation for the practical side of teaching, and gives the graduates of the school an unusual advantage.

Language

English Grammar:—Our teachers aim to make the work in grammar distinctly practical. While they present the technical side of the subject and emphasize the importance of a thorough understanding of the inflections and relations of the various parts of speech, their main purpose is to train the student in the use of his mother tongue by having him use it. Carefully criticized oral and written work is conducted and personal interviews with the students are held in order to point out their mistakes and lead to a remedy. The new course continues the study of grammar in the Senior year where, aside from a general review there taken, an opportunity is given for the presentation of pedagogical suggestions to the person about to teach. To our students grammar is made not merely a science—knowledge systematized—but an *art*—knowledge applied.

Rhetoric:—The work in rhetoric embraces a careful study of style in its various phases and a continuation of the written exercises carried on in grammar. Effectiveness of speech is thus made to supplement fluency and accuracy. The preparation of more comprehensive theses is added to the writing of one-page themes, and more formal and extended orations take the place of brief speeches.

Literature:—The study of literature includes a general survey of English and American literature, a thorough discussion of plans for the consideration of an author's life and writings, and a careful, critical examination and appreciation of certain great classics. The aim is not merely to familiarize the student with dates and facts, figures and philology, but to guide him to the real essence of literature and lead him to get at the heart of the thought of the author and get that thought into his heart.

The requirements in English for admission to American colleges receive special attention.

Latin:—In the Junior year the aim is to master the declensions of nouns, pronouns and adjectives, the comparison of adjectives, the formation and comparison of adverbs, and the conjugation of regular and irregular verbs. Daily exercises in the translation from Latin into English and from English into Latin are required in such a way as to give the student an ordinary working vocabulary and understanding of the common rules of syntax. Four books of Caesar's Commentaries are read. A critical study is made in view of thoroughly grounding the rules of syntax, special attention being given to subjunctives. Translation into the best English idiom is rigidly required. Translations at sight and hearing are practiced. A knowledge of the subject matter, such as the

tracing of Cæsar's marches, the geography of Gaul, the Roman art of war, and the life of Cæsar are topics for supplementary reading. In the third year six of Cicero's orations are read. Attention is given to the logical outlines, to the style of Roman oratory and to Cicero's life and the times in which he lived. Six books of Virgil's *Æneid* are also read. Attention is given to the general style, Epic poetry, poetic constructions, figures of speech, prosody, peculiarities in the forms, mythological references, and to Virgil's life and times.

German and French:—The instructors in this department have been educated abroad and have a careful and accurate knowledge of French and German. They have large experience in teaching these languages. The students, during the first year, are carefully drilled in correct pronunciation and made familiar with the elements of the Grammar. Idiomatic expressions, proverbs, short poems and prose selections are memorized and frequently repeated, and a considerable amount of German and French is read. Conversation and free reproduction based on selections read are found to be useful in fixing the principles of the language, and the sight reading and dictation exercises are valuable aids in the same direction. German or French is freely used in the class room to enable pupils to acquire as much as possible during the year. This is followed by a more exhaustive study of the grammar, by much reading of standard literature and further practice in conversation, composition and drill in letter-writing. Sight reading and dictation exercises are continued throughout the course.

Reading:—In the reading classes the aim is to cultivate the power of thought and imagination in relation to expression, both by theory and in practice, and to train the voice and body to be useful means of expression. Especial attention is paid to correct speech with a brief review of phonics. Advanced reading may be taken. This gives further opportunity for practice in speaking and interpretative reading of standard literature. Public recitals are given from time to time, which afford opportunity for public work. Special arrangements may be made for private lessons in elocution.

Orthography:—Students, upon entrance to the school, are given an opportunity to pass Orthography in a special examination. Those who are found to be deficient will be expected to take up the subject in class at once. Constant drill in spelling and definition is given from a good spelling book. The work is usually written, and much attention is paid to a correct understanding of the words spelled, as shown by their use in sentences. The school believes in the importance of correct spelling, and that persistent drill will make good spellers.

Mathematics

The methods employed in teaching mathematics are based on the pedagogical law, that the nature of the subject to be taught conditions the method of teaching it. The nature of every subject in mathematics is found in its fundamental concepts, its principles, and in their applications.

The fundamental principles are also developed inductively through solutions of characteristic problems, and are formulated and expressed in clear and concise language, and learned.

Accordingly, students preparing to teach are required to study thoroughly the science of each subject. In arithmetic and elementary algebra they are led inductively to a comprehension of the fundamental concepts and to an interpretation of the definitions of them.

Students are required to learn and illustrate all definitions and axioms; to commit to memory and thoroughly demonstrate all propositions and corollaries, giving full authority for every statement made; to solve all geometrical problems by accurate constructions, and to demonstrate and solve original theorems and problems.

Solid geometry and plane trigonometry and surveying are studied with equal thoroughness, and practical field work in surveying with a first-class surveyor's transit, with stadia attachment, is done during the spring term.

Classes in higher algebra, spherical trigonometry, analytical geometry and calculus are formed whenever a sufficient number of students apply to warrant it.

Physical Sciences

Physics:—In Physics the topics regarded as of practical value to the greatest number are mechanics, including the mechanics of liquids and gases; heat as a motive power, and in its application to atmospheric phenomena; and such portions of electricity as are necessary to an elementary knowledge of its more common practical applications. Individual laboratory work is required of all students.

Chemistry:—In Chemistry the work is almost entirely experimental in character. Each day's lesson is learned by the student in the laboratory, and embodies the result of his own observations and experimental work. As soon as the student is sufficiently advanced, his attention is turned to such portions of the subject as find practical application in the home, in the dairy, and on the farm.

Geology:—In Geology the student is expected to be familiar with the common minerals and rocks, and the changes undergone by rocks in weathering and in the processes of soil formation. Stress is placed upon the ability to recognize different rock formations, and the influence of such formations upon the general character of the country. He is also called upon to observe the action and effects of rain and streams in producing the present relief forms shown in our own neighborhood. In short, while an attempt is made to cover the ground and the text-book, such portions of the subject are given prominence as furnish the best fields for investigation in our locality and serve best to stimulate observation and thought.

Biological Sciences

Physiology:—A reasonable acquaintance with the bare facts is presupposed. The effort is here made to teach thoroughly the principles which underlie all life. The microscope, with abundant preparation, an Azouk manikin, and fresh material, are freely used. In the Middle year we take up

Botany:—Enough systematic Botany is taught to enable pupils to use the analytical tables. But the stress of the work is laid on the life activities of the plant, and on its relation to its surroundings. A well-equipped laboratory, with a rich supply of materials and charts, is used for this purpose. In the Middle year we also take up

Zoology:—Here an abundance of material, both living and prepared, is furnished. There are microscopes enough to familiarize all pupils with their use. The great types are studied. But the emphasis of the work is again laid on the life history of the animal and his relation to his surroundings. During the Senior year we offer an elective in

Nature Study:—Here selection is made from the animal and plant world, of the materials which can be best presented to children, and attention is paid to the method of adapting their subjects to the lower grade. A consistent plan runs through the entire course of Biological Sciences. A pupil who goes carefully through this course gets a good general view of modern biology.

Historical Sciences

History of the United States:—The work is based upon a text-book supplemented by required reading in the standard histories, exercises in historical geography and the preparation of written topics, with frequent reviews and examinations. Special attention is paid to the political and industrial development of the United States. Much topical work, designed to train students in the use of the more important secondary histories and illustrative source material, is given.

General History:—The course embraces a rapid survey of the entire subject, in which the origin and growth of institutions are briefly traced and the meaning of the more important movements and epochs pointed out and emphasized.

English History:—After the rapid survey of the origin and development of English institutions the class will make a more detailed study of the Protestant Reformation, the political revolutions of the Seventeenth Century, the growth of the British Empire and the industrial and political tendencies and movements of the Nineteenth Century.

✓ *Civil Government*:—A careful study of the Civil Government of the United States and of the State of Pennsylvania is made in the Junior year. The facts of the Constitution and the comments as found in the text-books are carefully learned and supplemented with much additional practical information and application. The course is designed not only to prepare its students to teach this important subject, now required in all the public schools of the State, but also to better prepare them for their duties as citizens.

The Arts

Drawing:—The aim of the course of instruction in this department is not only to teach the students Drawing, Form Study and Color, but also to furnish a means of mental development which shall lead to a knowledge and appreciation of the beautiful. The three general divisions of the work are: Representation, or the drawing of the appearance of objects; Decoration, or the producing of beauty in ornament; and Construction, which deals with the facts of form.

Writing:—The essential requisites for good business writing are legibility and speed. To get the best results in this department we use one of the approved systems of Vertical Writing, and in addition give students time exercises for practice in speed.

Book-keeping:—Book-keeping is taught from the practical standpoint. The course requires a knowledge of single entry book-keeping only, and especial attention is paid to the important business forms, the object being not only to enable students to understand and teach the subject, but also to illustrate many of the practical phases of arithmetic. A course in double entry book-keeping is also provided for those desiring it.

Physical Training

This department provides instruction and means for the betterments and preservation of health and the harmonious development of the body. It prepares graduates to introduce free gymnastics into their schools and to exercise intelligent oversight of the physical needs of school children. These objects are accomplished by—

1. Regular class exercises in the gymnasium during the fall and winter and upon the field in the spring, and by periods for optional work after school hours, alternating with class days.

2. Physical measurements and strength tests of all students upon entrance, at the close of the school year, and at such intervals as seems necessary. This forms the basis of comparison of the student's condition and needs, and determines the character and amount of exercise necessary to overcome marked deficiencies, irregular development, or such deformities as are amenable to physical exercises.

3. Personal advice in reference to habits of life, exercise, study, and recreation; by lectures and class-room instruction pertaining to hygiene, the physiology of exercise, etc.

4. Instruction concerning the history, systems, methods and educational value of gymnastics, and its correlation with other branches.

5. Practice teaching of school-room gymnastics, instruction and practice of plays and games involving physical activity, and a consideration of the principles which lie at the bases of the universal play instincts.

All students are required to take the prescribed light gymnastics, which are of such a character as to meet the average needs and not over-tax the strength of any student who is in a physical condition to undertake normal school work.

Location, Buildings, Etc.

The West Chester State Normal School was founded in the year 1871, by the joint efforts of the Trustees and contributors of the West Chester Academy, and the citizens of West Chester and vicinity.

West Chester is a beautiful town of 12,000 inhabitants, the county seat of Chester county, and is pre-eminent for its healthfulness, morality and intelligence. It is about twenty-five miles west of Philadelphia, with which it is connected by two lines of the Pennsylvania R. R. It is also connected with Philadelphia by a trolley line, over which cars run every half hour each way. A short branch road connects West Chester with the main line of the Pennsylvania Railroad at Frazer, where close connections are made with the trains on the main line; and by electric roads it is also connected with the Philadelphia & Reading R. R. at Lenape, and with the Pennsylvania R. R. at Downingtown and Kennett Square.

THE BUILDINGS

Are situated in the southern part of the borough, half a mile from the Court House. The main building is built of greenstone and white marble, 256 by 334 feet, four stories high, with basement.

The chapel and the dining-room are in the main building and are completely and handsomely fitted up. Each story has bath-rooms (hot and cold water), water-closets, slop-hoppers, &c., of the best pattern. The drainage is first-class. The whole building has lately been improved; the students' rooms have all been papered, refitted and refurnished, and many other improvements made to add to the efficiency of the school and the comfort of the students.

Two passenger elevators make all the floors equally desirable. An electric light plant supplies every part of the building with the best and safest lights.

THE GYMNASIUM.—There is a first-class gymnasium, 104 by 64 feet, with an administration building attached, 29 by 36 feet. It is of stone, two stories high, fitted up with every modern improvement, including a full supply of the best apparatus, running track, bath rooms, large swimming pool, bowling alleys, &c. A thoroughly trained physician and his wife are in charge of the gymnasium, and all exercise is taken under their supervision. All students are given a complete physical examination, and proper exercises prescribed for them. This gymnasium marks a great and important advance in the Normal School work, and its advantages are enjoyed by all students without extra cost.

RECITATION HALL.—This is a stone building 185 by 80 feet, with two stories above a high basement, which is used wholly for school purposes. It has been planned with great care, and is unusually well adapted for its purpose. It is heated and ventilated by the fan system. The total cost of the building and heating plant has been over \$100,000.

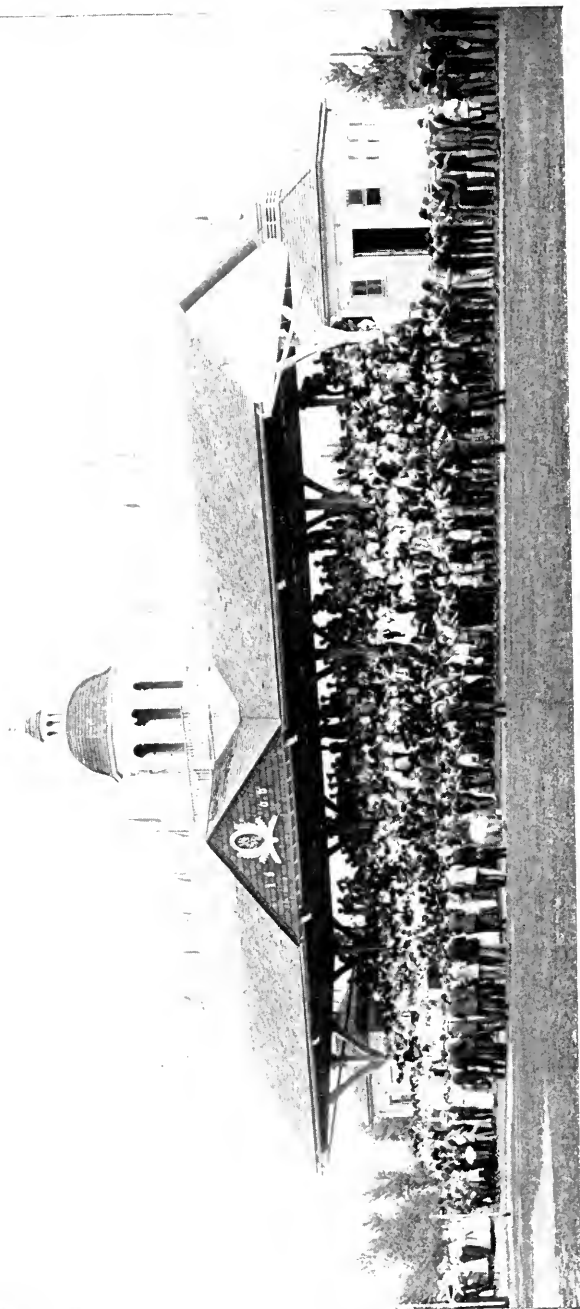

LIBRARY.—A new library building has been built at a cost of \$60,000. It is 90 by 72 feet, will hold 50,000 books, and affords fine reading and reference rooms. In its second story are the school's museum, an art gallery and the collection of the Chester County Historical Society. The library now contains more than 16,000 well selected volumes, including the libraries of the late Dr. William Darlington and of the Chester County Cabinet of Natural Sciences, the Evans Rogers collection of historical books, for which \$1,000 was given by the late Evans Rogers, the Horace Howard Furness collection of books on Shakespeare, the gift of Dr. Furness, and the collection of Chester county bibliography made by H. Rush Kervay. A modern card catalogue and a trained librarian add much to the value of the library. About a hundred leading magazines and papers come regularly to the library for the use of the school.

NEW BUILDINGS.—For years the school's large buildings were insufficient to accommodate the students applying for admission, and in 1910-11 three large new buildings were built. These are a **NEW BOYS' DORMITORY**, of green stone, three stories high, to accommodate 175 boys, where all the boys room, but take their meals in the main dining room, a short distance away.

An addition to the **DINING ROOM** and a new three-story **GIRLS' DORMITORY** over it, 100 x 50 feet, which doubles the size of the dining room, and with the rooms in the main building formerly used by boys, will accommodate 225 more girls.

A large new separate **HOUSEHOLD BUILDING**, with complete kitchen, bakery, store rooms and other conveniences. These buildings, with their equipment, cost \$150,000.

NEW GROUNDS.—The erection of so many buildings has so taken up the main campus that the Trustees have purchased adjacent grounds at various times, including the fine grounds of the Chester County Agricultural Society, until they now embrace forty-eight acres, including en-

Interscholastic Meet on Wayne Field

closed grounds suitably fitted up for all outdoor games, and a large and safe skating pond.

INFIRMARY.—A complete and well-appointed school infirmary, at considerable distance from the other school buildings, has been erected. This has been planned by skillful physicians and architects, and will not only promote the comfort and recovery of any who may be ill, but will also tend to prevent the spread of contagion in the school. It is believed that this was the first school of its class to take this important step. A trained nurse is employed by the school, who gives her whole time to the care of the health of the school.

The school property has now cost about \$900,000, and is believed to be one of the best and most complete of any State Normal School in this country.

STUDENT'S ROOMS.

The rooms are generally arranged for two students each. All are good sized, and are thoroughly heated by direct steam radiation. The rooms are newly and comfortably furnished, have closets, single beds, wash stands, bowls and pitchers, and are furnished with woven wire mattresses. The ladies' rooms are all carpeted. The buildings and grounds are lighted by the school's own electric lighting plant.

Admission, Government, Etc.

CONDITIONS OF ADMISSION

Pupils will be allowed to enter the regular course at any point for which they are actually fitted, subject to the regulations before mentioned. They may enter at any time during the Session.

A prompt attendance at the commencement of the Session is of the utmost importance, both to the progress of the pupil and proper organization of the School.

Students desiring to enter the institution should make application to the Principal at as early a date as possible. All new students must submit satisfactory testimonials of good character from their last teachers, and must have physicians' certificates of vaccination.

OUTFIT

Pupils boarding in the institution will be furnished with beds and bedding, and are expected to furnish a pair of blankets, or an equivalent, towels, and table napkins; also an umbrella and a pair of rubber overshoes. All students will need gymnasium shoes, which can be got in West Chester at small expense. The young ladies of the Senior, Middle and Junior classes provide themselves with gymnasium suits of black serge, the blouse waist of which may be made from Butterick pattern No. 9535, and it is highly desirable that all the young ladies should have this satisfactory and inexpensive dress. Many of the boys provide carpet for their rooms, thus giving them a very neat and homelike appearance.

Keys, wash-bowls and pitchers are furnished by the school, but their cost must be deposited when they are obtained, which deposit will be refunded when they are returned uninjured.

MORAL AND RELIGIOUS CULTURE

All students are required to attend the opening exercises of the school in the Chapel each day, and all must attend religious services each Sabbath morning in the town, at the churches preferred by their parents or guardians. The Young Men's and Young Women's Christian Associations are large and efficient, and maintain regular non-sectarian religious meetings.

LITERARY SOCIETIES

There are connected with the school two flourishing Literary Societies—The Moore Literary Society and the Aryan Society—composed of students and members of the Faculty.

The value of these Societies as adjuncts of education is so great that the student cannot afford to neglect the opportunities they afford for literary and oratorical culture.

MUSEUM

The Museum contains a large and valuable collection of specimens, illustrating every department of Natural Science. It was begun in the year 1826, and has been annually enriched with contributions from every portion of the world. The justly celebrated "Herbariums" of the late Dr. William Darlington, David Townsend and Josiah Hoopes, now in this Museum, are conceded to be among the most accurate and extensive private collections ever formed in this country. The mineral collections of the late Alfred Sharples have been deposited by his son, F. F. Sharples. The J. Preston Thomas collection of heads and horns, a valuable zoological collection from all parts of the world, and of Indian relics, including thousands of arrow heads, axes, pipes, &c., were collected by the late J. Preston Thomas and given to the School by his family.

TEXT BOOKS

Text Books are sold to students at publishers' prices; but most of the books used in the course are furnished on rent to those preferring it.

MUSIC

This department, including vocal music and piano, is unexcelled outside of the large cities. The teachers in charge are fine musicians, and have had long and successful experience in their profession.

VOCAL MUSIC

The best modern methods of instruction are used both in class work and individual instruction, and the success and popularity of the department have been very marked. Private pupils in vocal music pay the same rates as in instrumental music and have the use of a piano to aid their practice. Class instruction in vocal music is given without extra cost.

MUSIC RECITALS

Are held every few weeks in the Chapel for the purpose of giving the pupils ease and self-control in playing and singing before an audience. For these recitals a Steinway Concert Grand Piano is used.

A course of reading in musical literature is commended to cultivate the style and enrich the pupil's knowledge of the great masters.

APPLICATIONS FOR TEACHERS

Frequent applications are made to the Principal for well-trained teachers and it will be our aim to supply the demand as far as possible

CALENDAR

The school year is divided into two sessions. The Fall and Winter Sessions will begin *Monday, September 4th*, and continue *twenty-seven weeks*. The Spring Session will begin *Monday, March 29th*, and continue *thirteen weeks*. There will be a vacation of one week at Christmas, and one of the same length between the sessions in March.

EXPENSES

	Full School Year 40 weeks	Fall & Winter Term only 20 weeks	Spring Term only 13 weeks	Part of a Term Per week
<i>Boarding Students</i> :—Board, tuition, furnished room, light, heat, laundry (12 pieces per week), and enrollment fee.....	\$220.00	\$153.50	\$76.50	\$5.50
<i>Day Students</i> :—Tuition and Enrollment Fee	65.00	45.50	24.50	1.50
DEDUCTIONS :—				
State Aid for students 17 years or more of age and preparing to teach at least two years in Pennsylvania	60.00	40.50	19.50	1.50
<i>Absence</i> :—Boarding students absent for two or more consecutive weeks on account of personal sickness	4.50
No deduction will be made for the first four weeks or for the last four weeks of the school year.				
<i>Students who take Gymnasium only</i> ...	10.00	6.75	3.25	.25

When a student's place in the school building is held for him during his absence, and cannot be temporarily filled, a charge of \$1.00 per week is made.

Meal tickets for visitors may be got from the steward at 25c. each.

MUSICAL INSTRUCTION:—

Two lessons per week with two practice periods per day.....	50.00	34.00	16.00	1.30
Two lessons per week without practice	40.00	27.00	13.00	1.05
Use of piano two practice periods per day.....	10.00	7.00	3.00	.25

No deduction can be made for missed lessons unless the student is absent from school on account of personal sickness for two or more consecutive weeks.

For half the above number of lessons and practice the charge will be half as much.

All students except those who take only music lessons or gymnasium work will be charged once each year an enrollment fee of \$5, which must be paid before they enter school. No student will be enrolled for a room in or through the school until this fee has been paid. If notice of withdrawal is received a week or more before the opening of the term or the expected date of entrance, the enrollment fee will be re-

funded, and, as indicated above, in the case of a boarding student, will be credited upon the bill for a full year's attendance, but will not be credited upon the bills of day students.

In case of a deficit in the State Aid appropriation, students at the different State Normal Schools will receive the same pro rata share of the appropriation. The full amount has been received for many years.

Except in case of a deficit, the State Aid pays the tuition of all students who are over seventeen years of age who declare their intention to teach at least two full terms in the public schools of the State, and who constantly receive regular instruction in the science or art of teaching in a special class for that purpose.

\$74.25 must be paid at the beginning of the Fall and Winter term, the balance, after deducting the State Aid for the term, is due at the middle of this term. The bill for the Spring term must be paid at the beginning of that term.

The Principal acts for Trustees and receipts all bills.

Bills may be paid by cash, check, or postoffice money order.

There are no extra charges, except for books, stationery, sheet music and materials used in the laboratories.

There is no extra charge for vocal music, elocution, book-keeping or drawing taken in the regular classes.

Bills for one term must be settled before students will be permitted to enter upon the next term, unless by special arrangement.

Diplomas will not be issued to those whose bills are unpaid.

ALUMNI LOAN FUND.

A loan fund has been established by the Alumni, which now amounts to nearly \$3000. This is loaned, without interest, to worthy students preparing to teach, preferably to those already in attendance and who are in the advanced classes.

VISITORS AND VISITING

Calls on pupils at other times than during the hours of recreation seriously interfere with the object they have in view, and therefore will not be allowed except in case of necessity. Prolonged visits are not expected, as they interfere with the student's work as well as with the school's household arrangements.

Every absence from school duty is a loss which cannot be wholly made up. *Parents are earnestly requested not to take their children away from a single school duty, unless it is absolutely necessary. It will interfere with important school duties if a student leaves earlier than Saturday morning or returns later than Sunday evening.* Students are not permitted to visit home or away from town without special permission from their parents or guardians.

THE TEXT BOOKS USED.

Readers—Brumbaugh, Curry; *Arithmetic*—Sensenig & Anderson; *Geography*—King, Davis; *Grammar*—J. P. Welsh, Milne; *Geometry*—Wentworth; *Algebra*—Sensenig; *Physiology*—Davison; *Natural Philosophy*—Balderson; *Botany*—Bergen; *Chemistry*—Remsen; *Zoology*—Jordan, Kellogg and Heath; *Geology*—Tarr; *Rhetoric*—Merkley; *History, U. S.*—Mace, McLaughlin; *Civil Government*—Philips; *Drawing*—Prang; *Vocal Music*—Melodic; *School Management*—Seeley, White; *Methods of Instruction*—Roark; *Psychology*—Thorndike; *Trigonometry and Surveying*—Wells and Robbins; *Astronomy*—Sharpless & Philips; *Latin*—Allen & Greenough, Collar & Daniel, Gunnison & Harley's Cæsar, Allen & Greenough Texts; *German*—Bieswirth, German Texts; *English Literature*—Pancoast, English Texts; *Orthography*—Aiton.

Pole Vault—9 feet 9 inches

Interior of Library

REGULATIONS

1. Every student is requested on entering to give the Principal information in regard to the following particulars: Whether he designs fitting himself for a teacher; what length of time he desires remaining in the institution, and whether he desires to pursue the regular course for graduation.

2. Students are considered members of the school until the Principal is duly notified of their withdrawal.

3. The hours regularly assigned to duty are to be faithfully devoted to the preparation of the exercises required.

4. Students are allowed to walk for exercise in the vicinity of the school, but no one is permitted to visit the town or otherwise absent himself without permission from the Principal. Absence from the building after dusk is not permitted without permission. New acquaintances outside of the school must not be cultivated.

5. Permission to be absent from a recitation must always be obtained from the teacher in charge of the class, *before* the absence occurs; and students desiring to be absent from town must obtain written permission from the Principal.

6. Boarding students who are not present at the beginning of the term must send to the Principal written explanations of their absence.

7. Every student must be present at the daily opening exercises of the school, and at all general exercises of the school, and at the general exercises in the Chapel, unless excused.

8. All objectionable books, papers and cards found in possession of the students will be taken and destroyed.

9. Disorderly conduct in the building is prohibited. Each student will be held accountable for any disturbance or damage in his room.

10. No nails must be driven in the walls or ceilings, or alterations made in the windows, doors, or any appendage of the rooms without permission from the *Steward*.

11. Students are not allowed to visit one another's rooms during the regular hours of study without permission of those in charge of the halls. No change of rooms must take place without permission of the Principal.

12. Each student of instrumental music will have regular hours assigned for practice, during which time no spectator must be present to interrupt the exercises or divert the attention.

13. All students who are tardy, unnecessarily, at meals, must forfeit them, and no one must leave before the rest at the table without good reason, and permission from the person sitting at the head of the table. Any student sick or indisposed, and requiring attention, must have himself reported at once to the Nurse.

14. It is expected that the ladies and gentlemen of the Institution will treat one another with politeness but they will not be allowed to be together or to carry on conversation or other communication except in the performance of the school exercises, unless by special permission. Neither sex will be permitted to trespass upon that portion of the building assigned to the other.

15. No lady or gentleman attending this Institution will meet, walk or ride with a person of the opposite sex, except in case of necessity, and then only with the permission of the Principal.

16. Students will not visit the dining room at any other time than meal time, nor the domestic departments, boiler room or music rooms, without permission.

17. The use of tobacco in any form is strictly prohibited in the building or on the grounds.

18. Students must not enter any saloon, bar-room, billiard or pool-room. They are forbidden to use as a beverage alcoholic liquors of any kind whatever during their connection with the school.

19. Students will be required to attend public worship each Sabbath morning at such places as their parents or guardians designate.

20. Students are required to take up enough studies to keep them, in the judgment of the Principal, sufficiently employed, but not more than they can study with profit.

21. Students must furnish towels, napkins, and two pairs of blankets (or an equivalent), and have all articles of clothing *distinctly marked*. Each student is permitted to have twelve plain pieces washed each week without extra charge. While great care is taken with all articles sent to the laundry, the School will not be responsible for their loss or damage.

The right is reserved to remove from the school any pupil whose influence is found to be detrimental.

Directory of Alumni

Please notify us of any Changes or Errors

OFFICERS FOR 1911-12.

President—J. HARVEY HOFFMAN, Class of 1902.

Vice-President—CHRISTIAN C. SANDERSON, Class of 1901.

Drawing and Industrial Art

A Group of Students and Teachers of the 1911 term

SUMMER SCHOOL

...OF THE...

WEST CHESTER STATE NORMAL SCHOOL

I. GENERAL INFORMATION

On the Monday following Commencement day, that is, on Monday, June 24, the session of 1912 will begin. Students will be enrolled and classes arranged on that day. Recitations and class work will begin on Tuesday, June 25. Because the term is short, it is very desirable that every student be on hand ready to begin work on the first day. The school will continue in session for five weeks, until July 26, with sessions on five days of the week.

All the courses are planned to be entirely practical and helpful. Students of any school who have conditions to make up, will find these courses exactly suited to their needs: short, intensive surveys of the essentials of the subjects taken up is the aim of the school. To all completing any course or courses, certificates will be issued, setting forth the parts or courses completed. Our certificates of last year served to secure credit for the work done to a number of the students by their Superintendents, or in institutions of learning.

Other students used their Summer School gain to secure advanced grading and classification in their schools. As the work of the summer term becomes better known, it will receive higher and even wider recognition.

Who Can Profit by the School

First: Provisional certificate holders who wish eventually to become possessors of Normal Diplomas, without stopping work. A Professional certificate and the \$50 salary might also be secured by these same persons.

Second: Those who wish to be specialists. Drawing, vocal music, physical training and the manual arts have already been asked for.

Third: Persons who completed the two year Normal Course, and wish to fit themselves to hold High School positions by taking the work of the third year. Requests for this work have already been received.

Fourth: Normal graduates who wish to pursue post-graduate work in the present State course of study for the Degrees of Bachelor or Master of Pedagogy. Requests for this work have already been made.

Fifth: Teachers desiring special preparation for High School teaching, as in English, mathematics, science, etc. Such requests have already been received.

Sixth: Persons appointed to rural schools who are inexperienced in the work of such schools and wish special preparation for such work.

Seventh: Teachers who intend to take the State Examinations for Permanent certificates can here get the reviews needed. The reading prescribed for such certificates under the New Code will be given special attention in the pedagogical courses.

Eighth: Teachers who contemplate a college education, since Normal School graduation not only confers a life certificate to teach, but also secures college admission and even advanced standing to the extent of about a year's work.

Teaching Positions

Each summer brings many requests to the Normal School for teachers. Heretofore it has been impossible to fill desirable positions by reason of a lack of suitable persons. Hereafter recommendations to such positions will be made from the summer school enrollment when there are suitable candidates.

Points of Interest

Valley Forge, Brandywine, Paoli and numerous other points of historic interest are nearby. Philadelphia, with its countless places of interest, is easy and cheap of access. Saturdays are reserved this year for the purpose of trips to historic shrines, industrial centres, natural beauties, etc. Last year two such trips proved themselves among the best features of the entire summer's work.

Recreation

The gymnasium, with its swimming pool and bowling alleys, and the 50 acres of school grounds will be free. The surrounding country affords opportunity for numberless interesting walks, which are to be made part of the instruction in history, geography, nature study, etc., after the German plan.

Location and Accessibility

West Chester has unusually good railroad and trolley facilities. It is connected with Philadelphia by the Pennsylvania Railroad over two lines. At Frazer, connection with the entire system of the Pennsylvania lines is made, and at Lenape, with the Philadelphia & Reading Railway. There is half-hourly trolley service to Philadelphia for 30 cents, as well as trolley service to Kennett Square, Downingtown, Coatesville, Lancaster, &c.

Advantages of Location

West Chester is a beautiful town of 12,000 people and is pre-eminent for its healthfulness, morality and intelligence. Wide, shady, clean streets and beautiful parks, joined with much open space about the dwellings, assure comfort and the preservation of energy so that school work will be pleasant and profitable. By actual record, our temperatures are always from three to ten degrees lower than Philadelphia's temperature. The water supply is pure and abundant.

Boarding

Rooms and board in pleasant nearby homes will cost \$4 per week when two persons occupy one room, or \$5 per week for single rooms. Upon request a list of such homes will be mailed to inquirers. The entire term, therefore, need not cost more than \$35 to those desiring to keep the expense as low as possible. Excellent hotel accommodations at moderate prices are available for those preferring them.

Expenses

A payment of ten dollars (\$10) will be required from each student. This covers the charge for enrollment, tuition for any two courses, use of the library, and admission to all general entertainments, lectures and seminars. Additional charges will be made for additional courses at the rate of \$2.50 for each additional course, up to four courses, the limit permitted to any student. Laboratory charges covering materials actually used will be made in manual training, chemistry, etc.

Books and Supplies

All books and supplies needed will be procurable at usual prices in the school's book and supply room. Books may be rented also for a small weekly payment.

Further Information

Those who are coming should notify us early and indicate the courses which they desire to take. This will help us in planning to meet their needs.

Correspondence and inquiries are invited.

G. M. PHILLIPS, PRINCIPAL,
WEST CHESTER, PA.

II. COURSES OF INSTRUCTION

Practically all the work of the old Junior and Middle Years of the Normal School Course will be offered, and will be given where a sufficient number of students enroll for it. Senior, post-graduate and special work will be provided if called for by more than five students for any one subject. Work done in these courses will be credited toward a Normal School diploma. If prospective students do not find such courses as they desire, application to the Principal is all that is necessary to learn whether or not there have been requests for such courses and what are the prospects that they may be given.

Agriculture

In view of the increasing importance attached to this subject, it will be given careful attention. The aim will be to prepare students to teach it in the public schools. Besides class-room discussions and recitations, there will be experiments in the laboratory and practical observations in the garden. Among topics discussed will be origin, texture, tillage, moisture and fertility of soil, classes of farm crops, management of these, rotation of crops, diseases of plants, etc. The work will show what can be done in rural schools and in city graded schools. Suggestions will be given how to manage school gardens.

DR. GRIM.

Botany

This course will give a review of the whole subject. The lectures and discussions will be accompanied by experiments and demonstrations showing the work of plants. Material from the school garden will be used to illustrate the work.

DR. GRIM.

Drawing and Industrial Art

The teaching of drawing will be made very practical, and the aim will be to help those who are required to teach it in a grade with or without the supervision of a special teacher. The work of the different grades in the public schools will be presented in the Model School.

The same careful attention will be given to the course in supplementary hand-work. The course will include basketry, raffia, paper cutting, cardboard construction, etc. Those who pursue this course will be better equipped to teach the subject.

A course in industrial work, in advance of that given last summer, will be offered for the benefit of those who have had the beginnings of such work, or for those who are looking toward the supervision of the industrial work.

MRS. MARSHALL.

English

This course offers a careful review of the principles of English grammar and methods of teaching it in all grades. The course in literature will be practical and adapted to the needs of teachers. Story Telling in the grades will be an important topic of this course.

DR. MACMULLAN.

History

1. **United States History.**—The work of the present Third year in this subject will be offered. This course is based upon a text-book supplemented by collateral reading and topical work designed to train students in the use of secondary histories and illustrative source material.

PROF. BURNHAM.

2. **Civil Government.**—The Third year work (new course) in this subject includes a careful study of the Civil Government of the United States and the State of Pennsylvania, based upon Philips's Nation and State.

PROF. BURNHAM.

3. **History for Teachers.**—This course will deal with the problems of teachers of history in the common schools. The place of history in the course of study, its value, the use of stories in the lower grades, the proper use of a text-book and of other books, the use of illustrative material, the problem of teaching children how to study the lesson, will be some of the topics treated, and a series of type lessons will be given. This course will be counted as equivalent to the Third year (new course) Methods of Teaching History.

PROF. BURNHAM.

Physical Geography

The most recent methods of presentation and selection of material will be followed. The work will be mainly experimental with readings from text-books and other sources.

PROF. NEWMAN.

Geology

Physics

In addition to the work offered in the Nature Study courses in these branches, complete technical or academic courses will be given if enough students enroll for them.

PROF. NEWMAN.

Nature Study

1. **General Nature Study.**—This course will present the essentials in Nature Study for the ordinary teacher. A course of study for children in this subject will be presented and exemplified. Our domestic animals and common plants, birds and insects will be included as far as time permits.

DR. GRIM.

2. **Local Bird Life.**—Classes will be organized for the purpose of studying local bird life in field and wood, either or both in the early morning or early evening, training both eye and ear for bird recognition. Ways and means of teaching this subject in schools will also be suggested, as well as correlations with other phases of this subject.

DR. EHINGER.

3. **Geology.**—Walks and talks out-doors. What we may learn along the roadside, along a stream, in a quarry. Identification of rocks and minerals will be included. All field work will be supplemented by readings from pedagogical literature and by lectures.

PROF. NEWMAN.

4. **Elementary Science or Physics.**—Simple experiments and talks suitable for children, as what we learn from frost crystals on the window-pane; a lesson from a rubber ball, from a see-saw, from a fountain; the most familiar facts about electricity. Text-book study will supplement all this work, such as readings from the science publications. Appropriate lectures will summarize and organize the entire course.

PROF. NEWMAN.

5. Election of the class in courses 3 and 4 will be allowed to decide whether all the time shall be given to one, or whether both courses shall be taken, giving half of the term to each course.

6. **Astronomy.**—Opportunity to use the Normal School telescope will be extended to all students of the Summer School on evenings to be announced, and a short trip to Swarthmore College will give the opportunity to use the great Sproul telescope, the most powerful one in the eastern United States. A class in astronomy will be organized if desired.

PROF. NEWMAN.

Latin

1. **Elementary Latin.**—With the aid of charts specially devised, this course will give a good foundation in pronunciation and forms and a good knowledge of the fundamental principles of Latin Syntax. Methods of teaching will be suggested.

PROF. DICK.

2. **Caesar.**—An opportunity is given to review the work of the Middle year. Charts in colors have been prepared to illustrate Caesar's Campaigns in Gaul, and others to present difficult points in syntax. As good, idiomatic English is a prime requisite in a correct translation, attention is constantly called to the difference in idiom and word-order of English and Latin.

Work in Cicero and Virgil will be planned, if it is needed.

PROF. DICK.

Mathematics

Courses will be offered in Arithmetic, Algebra and Plane Geometry, in which the work will be of the same character and grade as that now pursued in the Normal School in the Junior and Middle years. In Arithmetic stress will be laid upon methods of teaching the different topics considered.

Classes will be organized in Solid Geometry, Plane and Spherical Trigonometry, and Surveying, if there is a sufficient demand for them.

DR. ANDERSON,

MISS MARTIN.

Modern Languages

Courses, giving careful drill in pronunciation and grammar, in German or French, elementary or advanced, will be arranged according to the needs and number of those who enroll.

PROF. DICK.

Music

Sight Singing and theory of vocal music will be course one in this subject.

A class for those who are looking toward supervision and direction of the music work of a system of schools will also be organized if wanted.

TEACHER TO BE SUPPLIED.

Pedagogy — School of Observation

A one-room school, consisting of all the classes usually found in a rural school, will be open in the Model School building during the entire time the summer session continues. It will be in charge of a skilled teacher whose methods will exemplify what can be done by the so-called ungraded school teacher.

Specialists, members of the faculty, will give illustrative lessons in this school with classes in nature study, calisthenics, vocal music, story telling, English composition, industrial art, and writing, thus giving the members of the school an opportunity to see the pupils working with their teachers under ordinary conditions, and to observe what can be done by adapting and applying the methods taught in the several courses of the Summer School.

Particular attention will be given to games and directed play. (See Organized Play.)

Every teacher who becomes a member of the school should arrange a program so that she can spend a period a day in the school of observation. The principal and teacher of this school will meet such students as desire to attend a seminar, to discuss methods and ask questions.

A visit to the School of Observation during one period (one hour) will be counted as a course in Observation, and will be charged for as a course. The program of the School of Observation will be changed so as to show various phases of the work at the same hour, thus assuring observers of seeing everything without themselves making any change of program.

MRS. KELLOGG,

SUPT. JONES,

PROF. WAGNER.

Pedagogy — School Management and School Law

The organization and the operation of a single school, comprising eight grades, by one teacher, will be studied in all important phases and details; book study and recitation will be supplemented by observation under direction in the Model School. One period daily will be required for class work. Observation work will require additional time. White's School Management will be used as the text. Library work from other texts will be assigned as needed.

The School Law of Pennsylvania, in the phases needed by teachers, will be presented from the text of the law.

PROF. WAGNER

History of Education

The history of education is studied so as to emphasize the beginnings of present day practices, and to show the organization and the content of the courses of study of famous schools and systems, so that existing ideas and ideals in education shall be clearly perceived in both their progress and development. Into this scheme the leading educators are fitted as the stepping stones. This course will be useful for persons who contemplate taking the Philadelphia examinations. Kemp's History of Education will be used.

PROF. WAGNER.

School Administration

This course includes the organization of a system of schools, their management and administration by Principal, Supervising Principal or Superintendent, with particular regard for the questions of time distribution among the grades and branches, relation of home and school, and the work of Parents' Associations. Lectures and assigned readings in standard works of reference.

PROF. WAGNER.

SUPT. JONES.

Professional Reading

As soon as the class is organized those books from Dr. Schaeffer's lists which the class elects will be taken up for analysis, interpretation and organization with a view to thorough possession and assimilation of their ideas and spirit, so as to convert them into working capital for the teacher. Two books will be thus covered.

PROF. WAGNER.

PROF. CAMERON.

Organized Play

A course will be conducted in organized play, with special emphasis upon plays and games suitable for school children. The aim will be to correlate this with the work done in Methods and School Management, and to secure an insight into the nature and function of play, its relation to the formal branches of the school curriculum, and its influence upon growth and development. The school campus, and Wayne Field adjoining, afford every facility for such activities. Students will have an opportunity to learn school games and to see them played by the pupils of the Model School.

DR. EHINGER.

Physiology and Hygiene

In conjunction with this work opportunity will be afforded to pursue a course in physiology, with particular reference to the problems involved in teaching personal and school hygiene, and school sanitation. The relations of infectious and contagious diseases to school life and health will be considered as a part of this course.

DR. EHINGER.

Psychology

1. **Elementary Psychology.**—This course is offered for those who wish to become acquainted with the more general aspects of Psychology. It includes a study of the fundamental processes of sensation, perception, imagination, memory, etc., and their development and function. It will be accepted as the equivalent of one-half year's work in Middle Year Psychology. Text-book: Thorndike's Elements of Psychology.

PROF. CAMERON.

2. **Advanced Psychology.**—For those who have already done work in Psychology, this course is given to afford opportunity for advanced study. Emphasis will be given to the application of Psychology to the various phases of activity. Its satisfactory completion will meet the requirements for the Middle Year work of the Normal School.

PROF. CAMERON.

3. **Child Study.**—This course is intended not only for teachers who desire to prepare themselves for studying the problems of the child in its relation to school work, but also for parents and others who are interested in the development of the child. It will be of especial value to Sunday School teachers who wish to meet their particular problems in an intelligent way. In this course emphasis will be put on the study of adolescence. Along with the course in Elementary Psychology, this course will fulfill the requirements for the Middle Year work in the subject, and will be accepted as post-graduate work.

PROF. CAMERON.

III. LECTURES

To make the Summer School as valuable and as practical as possible, men who are achieving things in the school world and work are being secured to come to tell the students what they have done and how it has been accomplished. Last year at least ten such lectures were given. This year the list will probably be longer. The lectures are free to students.

Doctors Green, Schinucker, Cameron and Ehinger will give evening lectures. The Principal, Dr. G. M. Philips, will give both evening and afternoon addresses.

It is expected that the following lecturers, most of whom addressed the Summer School so acceptably last year, will lecture before it this year.

Dr. J. Geo. Becht,	Sec. of State Board of Education.
Superintendent	Daniel Fleisher, Lancaster Co., Pa.
"	J. H. Hoffman, Bucks Co., Pa.
Principal	Walter L. Philips, Lansdowne, Pa.
Superintendent	R. E. Laramy, Phoenixville, Pa.
"	L. E. McGinnes, Steelton, Pa.
"	E. L. Rapp, Berks Co., Pa.
"	A. G. C. Smith, Delaware Co., Pa.
"	G. W. Moore, Chester Co., Pa.
Doctor	Jane Baker, Medical Inspector, West Chester, Pa.
"	Jos. Scattergood, Medical Inspector for Chester Co.

IV. STATE EXAMINATIONS FOR PERMANENT CERTIFICATES

The State Superintendent of Public Instruction has fixed the dates for these examinations for this year, as follows:

The entire list of districts and dates for the State is published in the January, 1912, issue of the Pennsylvania School Journal.

25th district, including Bucks and Montgomery counties, at Norristown, on the second Thursday and the day following, in June.

26th district, including Chester, Delaware and Philadelphia counties, at Philadelphia, on the first Thursday, and the day following, in August.

For persons who intend to take these examinations but wish first to make a review of certain books or subjects, this term of Summer School offers the very best and most timely advantages and opportunities: thorough reviews, emphasis of essentials and drill upon them, and the careful correlation and proper subordination of the threads of thought-connection in any subject—which constitutes the very best preparation for an examination—these are characteristic of the reviews conducted in the Summer School classes. This is the precise help that candidates for examination desire, and here is the chance for those who wish to use it.

The same thing is true with respect to present holders of State Permanent Certificates who intend to take examinations for the addition of branches to their certificates.

From the Pennsylvania School Journal (Jan., 1912.): "Applicants may be examined in a part of the branches at one examination and in the remainder of them at one or two subsequent examinations, as follows: Preliminary branches—spelling, reading, writing, physiology and hygiene, geography, English grammar, arithmetic, elementary algebra, history of the United States and Pennsylvania, civil government, including State and local government; school management and methods of teaching and one approved book on pedagogy."

"Final branches—first group—vocal music, drawing, physical geography, elementary botany, plane geometry and one approved book on pedagogy."

"Final branches—second group—elementary zoology, general history, elementary physics, English literature, and two approved books on pedagogy."

"Applicants may be examined in all the branches at one and the same examination. They shall not be examined more than once each year in all or in any one of these divisions of branches."

"Applicants should be examined in the district in which they reside, but they may be examined in any other district if they first obtain the consent of the Secretary of the Board of Examiners in that district."

"No applicant can be admitted to the examination who has not presented a valid professional certificate and an application properly signed by the proper Board and the Superintendent. A health certificate must be submitted when the examination is taken."

"Selection of the required four books on pedagogy may be made from the following: Hamilton's Recitation, Kemp's History of Education, White's Elements of Pedagogy, Bryan's The Basis of Practical Teaching, Kern's Among Country Schools, Coulter's Practical Nature Study and Elementary Agriculture, Allen's Civics and Health, James' Talks to Teachers, Chancellor's Our Schools, Their Administration and Supervision; Dutton's School Management, The Teaching of English by Professors Carpenter, Baker and Scott, Young's Teaching of Mathematics."

SUMMER SCHOOL

1912

JUNE 24TH TO JULY 26TH
